Arizona’s AAPI Electorate in 2016
There are over 146,000 eligible AAPI voters, comprising 3% of the state’s electorate.

Population Facts

- Largest AAPI ethnic groups in Arizona include: Filipino (59,000), Indian (51,000), Chinese (49,000), Vietnamese (37,000), Korean (22,000), and Japanese (21,000).
- From 2000 to 2010, the number of eligible AAPI voters (citizen voting age population, or CVAP) in Arizona grew by 20%.
- From 2008 to 2012, the number of eligible AAPI voters in Arizona grew 25%.
  - This compares to a 8.1% growth rate for the statewide eligible voting population between 2008 to 2012.
- AAPI youth (ages 18-29) comprise 25% of the AAPI CVAP population in Arizona.
- AAPIs age 50 and up comprise 33% of the AAPI CVAP population.

Challenges to Voter Participation

- 71% of Asian Americans in Arizona speak a language other than English at home, and of those, more than 29% speak English less than “very well.”
Voter Engagement and Identification

- Voter contact is a large, unmet need among AAPIs. In the 2012 AAPI Post-Election Survey of registered voters, 74% of Pacific Islanders and 69% of Asian Americans received no contact about the election, compared to 64% of Latinos, 61% of African Americans, and 57% of whites who were not contacted.
- Among those contacted, Democrats had the most reach (50%), followed by Republicans (42%) and nonpartisan community organizations (25%).
- In the Southwest region, the lack of contact among Asian Americans was even higher, at 80% of registered voters.
- There is also a large opportunity for voter education through contact. In the same survey of registered voters, 47% of Asian Americans and 37% of Pacific Islanders did not declare an identification with either political party, compared to 20% of African Americans, 31% of Latinos, and 36% of whites.

Importance of Language Access

Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

Socioeconomic Challenges

- About 35,670 Asian Americans in Arizona (17%) lack health insurance.
- About 25,700 Asian Americans in Arizona (14%) live in poverty.
- About 3,200 NHPIs in Arizona (28%) live in poverty.

Multilingual Voter Hotline

If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

California’s AAPI Electorate in 2016
There are over 3,700,000 eligible AAPI voters, comprising 14.86% of the state’s electorate.

Population Facts

- Largest AAPI ethnic groups in California include: Filipino (1,597,000), Chinese (1,576,000), Indian (733,000), Vietnamese (718,000), Korean (545,000), and Japanese (450,000).
- California is home to 303,000 NHPIs, more than any other state except for Hawaii.
- From 2000-2010, the number of eligible AAPI voters (citizen voting age population, or CVAP) in California grew by 38%.
  - This AAPI growth rate compares to 10% for the statewide population.
- From 2008 to 2012, the number of eligible AAPI voters in California grew 15%.
  - This compares to a 7% growth rate for the statewide eligible voting population between 2008 to 2012.
- AAPI youth (ages 18-29) comprise 23% of the AAPI CVAP population in California.
- AAPIs age 50 and up comprise 40% of the AAPI CVAP population.

In the same survey of registered voters, 47% of Asian Americans and 37% of Pacific Islanders did not declare an identification with either political party, compared to 20% of African Americans, 31% of Latinos, and 36% of whites.

### Importance of Language Access

Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

### Socioeconomic Challenges

- About 665,900 Asian Americans in California (13%) lack health insurance.
- About 604,300 Asian Americans in California (12%) live in poverty.
- About 24,300 NHPIs in California (17%) live in poverty.

### Multilingual Voter Hotline

If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

---

Data on growth of AAPI CVAP from report by New Organizing Institute Education Fund. Data on language access, voter engagement and identification from the 2012 AAPI Post-Election Survey. Finally, with respect to population and CVAP numbers: In order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2014 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP, which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
Michigan’s AAPI Electorate in 2016
There are over 145,000 eligible AAPI voters, comprising 1.8% of the state’s electorate.

Population Facts

- Largest AAPI ethnic groups in Michigan include: Indian (103,000), Chinese (59,000), Korean (39,000), Filipino (35,000), Vietnamese (17,000), and Japanese (16,000).

- From 2000 to 2010, the AAPI population in Michigan grew by 50%
  - This AAPI growth rate compares to 1% for the statewide population between 2000 to 2010.

- From 2008 to 2012, the number of eligible AAPI voters in Michigan grew 16%.
  - This compares to a 1.1% growth rate for the statewide eligible voting population between 2008 to 2012.

- AAPI youth (ages 18-29) comprise 28% of the AAPI electorate in Michigan.

- AAPIs age 50 and up comprise 34% of the AAPI electorate.

Data on growth of AAPI CVAP from report by New Organizing Institute Education Fund. Data on language access, voter engagement and identification from the 2012 AAPI Post-Election Survey. Finally, with respect to population and CVAP numbers: In order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2014 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP, which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
Illinois’ AAPI Electorate in 2016

There are 383,000 eligible AAPI voters, comprising 4% of the state’s electorate.

Population Facts

- Largest AAPI ethnic groups in Illinois include: Indian (254,000), Filipino (150,000), Chinese (133,000), Korean (70,000), Pakistani (34,000), and Japanese (28,000).
- From 2000-2010, the number of eligible AAPI voters (citizen voting age population, or CVAP) in Illinois grew by 36%.
  - This AAPI growth rate compares to 3% for the statewide population.
- From 2008 to 2012, the number of eligible AAPI voters in Illinois grew 15%.
  - This compares to a 2.6% growth rate for the statewide eligible voting population between 2008 to 2012.
- AAPI youth (ages 18-29) comprise 23% of the AAPI CVAP population in Florida.
- AAPIs age 50 and up comprise 38% of the AAPI CVAP population.

Challenges to Voter Participation

- 79% of Asian Americans in Illinois speak a language other than English at home, and of those, more than 32% speak English less than “very well.”
Voter Engagement and Identification

- Voter contact is a large, unmet need among AAPIs. In the 2012 AAPI Post-Election Survey of registered voters, 74% of Pacific Islanders and 69% of Asian Americans received no contact about the election, compared to 64% of Latinos, 61% of African Americans, and 57% of whites who were not contacted.
- Among those contacted, Democrats had the most reach (50%), followed by Republicans (42%) and nonpartisan community organizations (25%).
- In the Midwest, the lack of contact among Asian Americans was even higher, at 80% of registered voters.
- There is also a large opportunity for voter education through contact. In the same survey of registered voters, 47% of Asian Americans and 37% of Pacific Islanders did not declare an identification with either political party, compared to 20% of African Americans, 31% of Latinos, and 36% of whites.

Importance of Language Access

Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

Socioeconomic Challenges

- About 86,300 Asian Americans in Illinois (14%) lack health insurance.
- About 75,300 Asian Americans in Illinois (12%) live in poverty.
- About 350 NHPIs in Illinois (11%) live in poverty.

Multilingual Voter Hotline

If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

Challenges to Voter Participation

- 71% of Asian Americans in North Carolina speak a language other than English at home, and of those, about 36% speak English less than “very well.”
**Voter Engagement and Identification**

- Voter contact is a large, unmet need among AAPIs. In the 2012 AAPI Post-Election Survey of registered voters, 74% of Pacific Islanders and 69% of Asian Americans received no contact about the election, compared to 64% of Latinos, 61% of African Americans, and 57% of whites who were not contacted.
- Among those contacted, Democrats had the most reach (50%), followed by Republicans (42%) and nonpartisan community organizations (25%).
- In the West, the lack of contact among Asian Americans was even higher, at 80% of registered voters.
- There is also a large opportunity for voter education through contact. In the same survey of registered voters, 47% of Asian Americans and 37% of Pacific Islanders did not declare an identification with either political party, compared to 20% of African Americans, 31% of Latinos, and 36% of whites.

**Importance of Language Access**

Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

**Socioeconomic Challenges**

- About 20,400 Asian Americans in Oregon (13%) lack health insurance.
- About 24,500 Asian Americans in Oregon (16%) live in poverty.
- About 5,100 NHPIs in Oregon (35%) live in poverty.

**Multilingual Voter Hotline**

If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

New York’s AAPI Electorate in 2016
There are over 903,000 eligible AAPI voters, comprising 6.3% of the state’s electorate.

Population Facts

- Largest AAPI ethnic groups in New York include: Chinese (714,000), Indian (407,000), Filipino (140,000), Korean (134,000), Pakistani (88,000), and Bangladeshi (76,000).
- From 2000-2010, the number of eligible AAPI voters (citizen voting age population, or CVAP) in New York grew by 33%.
  - This AAPI growth rate compares to 2% for the statewide eligible voting population between 2000 to 2010.
- From 2008 to 2012, the number of eligible AAPI voters in New York grew 16.8%.
  - This compares to a 3.2% growth rate for the statewide eligible voting population between 2008 to 2012.
- Youth (ages 18-29) comprise 25% of the AAPI electorate in New York.
- AAPIs age 50 and up comprise 38% of the AAPI electorate.

Data on growth of AAPI CVAP from report by New Organizing Institute Education Fund. Data on language access, voter engagement and identification from the 2012 AAPI Post-Election Survey. Finally, with respect to population and CVAP numbers: in order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2014 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP, which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
Nevada’s AAPI Electorate in 2016
There are over 177,000 eligible AAPI voters, comprising 9% of the state’s electorate.

Population Facts

- Largest AAPI ethnic groups in NV include: Filipino (149,000), Chinese (45,000), Japanese (24,000), Korean (20,000), Indian (14,000), and Vietnamese (14,000).
- From 2000 to 2010, the number of eligible AAPI voters (citizen voting age population, or CVAP) in Nevada grew by 55%.
  - This AAPI growth rate compares to 35% for the statewide eligible voting population between 2000 to 2010.
- From 2008 to 2012, the number of eligible AAPI voters in Nevada grew 21%.
  - This compares to a 7.6% growth rate for the statewide eligible voting population between 2008 to 2012.
- AAPI youth (ages 18-29) comprise 22% of the AAPI CVAP population in Nevada.
- AAPIs age 50 and up comprise 39% of the AAPI CVAP population.
