## Arkansas

### POPULATION FACTS

- Largest AAPI ethnic groups in Arkansas include: Indian (11,584), Filipino (10,215), Chinese (9,299), Vietnamese (4,882), Laotian (4,559), and Korean (4,188).
- From 2010 to 2016, the number of eligible AAPI voters in Arkansas grew 29%.
  - This compares to a 3% growth rate for the statewide eligible voting population between 2010 to 2016.
- AAPI youth (ages 18-29) comprise 29% of the AAPI CVAP population in Arkansas.
- AAPIs age 50 and up comprise 33% of the AAPI CVAP population.

</table>

The number of eligible AAPI voters in Arkansas grew 29% in the last decade—more than 9 times faster than the statewide voting population.
VOTER ENGAGEMENT AND IDENTIFICATION

• Voter contact continues to be an unmet need for AAPIs. In the 2016 Post-Election National Asian American Survey, 74% of Native Hawaiians & Pacific Islanders and 71% of Asian Americans across the country received no contact about the election, compared to 73% of Latinos, 58% of African Americans, and 56% of whites who were not contacted.

• Among Asian American registered voters that were contacted, 48% reported contact by the Democratic Party in the Fall 2016 National Asian American Survey, 16% by the Republican Party, and 35% by both parties.

• There is also a large opportunity for voter education through contact. In the same survey of registered voters, 41% of Asian Americans and 40% of Pacific Islanders did not declare an identification with either political party.

IMPORTANCE OF LANGUAGE ACCESS

• 70% of Asian Americans in Arkansas speak a language other than English at home, and of those, more than 45% speak English less than “very well.”

• Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

SOCIOECONOMIC CHALLENGES

• About 5,557 Asian Americans in Arkansas (13%) lack health insurance.

• About 5,678 Asian Americans in Arkansas (14%) live in poverty.

• About 1,970 NHPIs in New Jersey (30%) live in poverty.

MULTILINGUAL VOTER HOTLINE

• If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

For more information or questions, please email info@apiavote.org or info@apaidata.com.

In order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2016 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP, which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
Arizona

POPULATION FACTS

- Largest AAPI ethnic groups in Arizona include: Filipino (65,045), Indian (54,028), Chinese (53,765), Vietnamese (36,143), Japanese (23,070), and Korean (20,806).
- From 2010 to 2016, the number of eligible AAPI voters in Arizona grew 32%.
  - This compares to a 13% growth rate for the statewide eligible voting population between 2010 to 2016.
- AAPI youth (ages 18-29) comprise 24% of the AAPI CVAP population in Arizona.
- AAPIs age 50 and up comprise 35% of the AAPI CVAP population.

**Hawai‘i**

### POPULATION FACTS

- Largest Asian ethnic groups in Hawai‘i include: Filipino (377,904), Japanese (313,014), Chinese (202,141), Korean (48,951), Vietnamese (13,961), and Okinawan (6,718).

- Largest NHPI ethnic groups in Hawai‘i include: Native Hawaiian (303,558), Samoan (35,237), Marshallese (8,905), Guamanian or Chamorro (6,766), and Tongan (6,237).

- Hawaii is America’s only majority-AAPI state and has the highest NHPI population in the country—27.5% of the state’s population, about 389,797, are NHPI.

- From 2010 to 2016, the number of eligible AAPI voters in Hawai‘i grew 5%.
  - This compares to a 6% growth rate for the statewide eligible voting population between 2010 to 2016.

- AAPI youth (ages 18-29) comprise 21% of the AAPI CVAP population in Hawai‘i.

- AAPIs age 50 and up comprise 47% of the AAPI CVAP population.

VOTER ENGAGEMENT AND IDENTIFICATION

- Voter contact continues to be an unmet need for AAPIs. In the 2016 Post-Election National Asian American Survey, 74% of Native Hawaiians & Pacific Islanders and 71% of Asian Americans across the country received no contact about the election, compared to 73% of Latinos, 58% of African Americans, and 56% of whites who were not contacted.
- Among Asian American registered voters that were contacted, 48% reported contact by the Democratic Party in the Fall 2016 National Asian American Survey, 16% by the Republican Party, and 35% by both parties.
- There is also a large opportunity for voter education through contact. In the same survey of registered voters, 41% of Asian Americans and 40% of Pacific Islanders did not declare an identification with either political party.

IMPORTANCE OF LANGUAGE ACCESS

- 43% of Asian Americans in Hawai’i speak a language other than English at home, and of those, more than 58% speak English less than “very well.”
- Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

SOCIOECONOMIC CHALLENGES

- About 23,829 Asian Americans in Hawai’i (5%) lack health insurance.
- About 36,883 Asian Americans in Hawai’i (7%) live in poverty.
- About 33,800 NHPIs in Hawai’i (24%) live in poverty.

MULTILINGUAL VOTER HOTLINE

- If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

IMPORTANCE OF LANGUAGE ACCESS

- 80% of Asian Americans in Louisiana speak a language other than English at home, and of those, more than 47% speak English less than “very well.”
- Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

SOCIOECONOMIC CHALLENGES

- About 14,674 Asian Americans in Louisiana (19%) lack health insurance.
- About 13,640 Asian Americans in Louisiana (18%) live in poverty.
- About 191 NHPIs in Louisiana (14%) live in poverty.

MULTILINGUAL VOTER HOTLINE

- If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

For more information or questions, please email info@apiavote.org or info@aapidata.com.

In order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2016 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP, which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
Massachusetts

**POPULATION FACTS**

- Largest AAPI ethnic groups in Massachusetts include: Chinese (174,589), Indian (107,715), Vietnamese (61,219), Cambodian (34,128), Korean (28,857), and Filipino (25,138).
- From 2010 to 2016, the number of eligible AAPI voters in Massachusetts grew 34%.
  - This compares to a 6% growth rate for the statewide eligible voting population between 2010 to 2016.
- AAPI youth (ages 18-29) comprise 26% of the AAPI CVAP population in Massachusetts.
- AAPIs age 50 and up comprise 36% of the AAPI CVAP population.

More than half of all eligible AAPI voters (61%) in Nevada live in Clark County, which includes Las Vegas.
**VOTER ENGAGEMENT AND IDENTIFICATION**

- Voter contact continues to be an unmet need for AAPIs. In the 2016 Post-Election National Asian American Survey, 74% of Native Hawaiians & Pacific Islanders and 71% of Asian Americans across the country received no contact about the election, compared to 73% of Latinos, 58% of African Americans, and 56% of whites who were not contacted.

- Among Asian American registered voters that were contacted, 48% reported contact by the Democratic Party in the Fall 2016 National Asian American Survey, 16% by the Republican Party, and 35% by both parties.

- There is also a large opportunity for voter education through contact. In the same survey of registered voters, 41% of Asian Americans and 40% of Pacific Islanders did not declare an identification with either political party.

**IMPORTANCE OF LANGUAGE ACCESS**

- 70% of Asian Americans in Nevada speak a language other than English at home, and of those, more than 42% speak English less than “very well.”

- Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

**SOCIOECONOMIC CHALLENGES**

- About 29,487 Asian Americans in Nevada (13%) lack health insurance.
- About 21,020 Asian Americans in Nevada (10%) live in poverty.
- About 4,023 NHPIs in Nevada (22%) live in poverty.

**MULTILINGUAL VOTER HOTLINE**

- If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

For more information or questions, please email info@apiavote.org or info@aapidata.com.

In order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2016 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP, which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
New York

POPULATION FACTS

- Largest AAPI ethnic groups in New York include: Chinese (755,983), Indian (405,833), Korean (145,335), Filipino (142,006), and Bangladeshi (86,228).

- From 2010 to 2016, the number of eligible AAPI voters in New York grew 25%.
  - This compares to a 4% growth rate for the statewide eligible voting population between 2010 to 2016.

- AAPI youth (ages 18-29) comprise 25% of the AAPI CVAP population in New York.

- AAPIs age 50 and up comprise 38% of the AAPI CVAP population.

• Voter contact continues to be an unmet need for AAPIs. In the 2016 Post-Election National Asian American Survey, 74% of Native Hawaiians & Pacific Islanders and 71% of Asian Americans across the country received no contact about the election, compared to 73% of Latinos, 58% of African Americans, and 56% of whites who were not contacted.
• Among Asian American registered voters that were contacted, 48% reported contact by the Democratic Party in the Fall 2016 National Asian American Survey, 16% by the Republican Party, and 35% by both parties.
• There is also a large opportunity for voter education through contact. In the same survey of registered voters, 41% of Asian Americans and 40% of Pacific Islanders did not declare an identification with either political party.

IMPORTANT OF LANGUAGE ACCESS

• 78% of Asian Americans in Rhode Island speak a language other than English at home, and of those, more than 39% speak English less than “very well.”
• Turnout is 9% lower for Limited-English Proficient (LEP) than non-LEP registered voters according to the 2012 AAPI Post-Election Survey, and 63% say that Asian language support at polling places would be useful.

SOCIOECONOMIC CHALLENGES

• About 3,621 Asian Americans in Rhode Island (11%) lack health insurance.
• About 4,334 Asian Americans in Rhode Island (13%) live in poverty.
• About 19 NHPIs in Rhode Island (4%) live in poverty.

MULTILINGUAL VOTER HOTLINE

• If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

For more information or questions, please email info@apiavote.org or info@aapidata.com.

In order to capture Asian Americans and Pacific Islanders who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this to overcome two problems: CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multi-racial population numbers from FactFinder tables (more than 10% of multi-racial AAPIs say they are Asian as well as Native Hawaiian or Pacific Islander). Resident numbers regardless of age and citizenship are derived from the 2016 ACS 1YR PUMS file. We derive the number of CVAP by multiplying residents by the proportion CVAP which is calculated using the latest 5YR PUMS file to improve precision. Any other characteristics of the population is based on the ACS 5YR PUMS file to provide the most precise estimates possible. Finally, the PUMS file does not contain large enough samples for county estimates, so we rely on the Census Bureau’s Special Tabulations of the Citizen Voting Age Population, which provides county estimates but does not include multiracial AAPIs.
Texas

POPULATION FACTS

- Largest AAPI ethnic groups in Texas include: Indian (398,925), Vietnamese (297,915), Chinese (233,006), Filipino (179,113), Korean (92,722), and Pakistani (74,626).
- From 2010 to 2016, the number of eligible AAPI voters in Texas grew 42%.
  - This compares to a 12% growth rate for the statewide eligible voting population between 2010 to 2016.
- AAPI youth (ages 18-29) comprise 80% of the AAPI CVAP population in Texas.
- AAPIs age 50 and up comprise 41% of the AAPI CVAP population.
