3 KEY THINGS TO KNOW:

- Growth of AAPI residents 2010-2020: 80%
- Growth of eligible AAPI voters 2010-2020: 39%
- Share of Asian American adults who are Limited English Proficient: 38%

VOTER ENGAGEMENT AND IDENTIFICATION (NATIONAL-LEVEL DATA)

- Voter contact continues to be an unmet need for AAPIs. In the 2022 Asian American Voter Survey, 56% of Asian Americans received no contact or were unsure if they received contact about the election from the Democratic party and 66% reported the same from the GOP.
- Among contacted Asian American registered voters, 44% reported contact by the Democratic Party from the same survey, 35% by the Republican Party, and 39% by community organizations. In comparison, the 2016 National Asian American Post-Election Survey shows 48% of AAPI voters reported contact from the Democratic party and 16% by the Republican party.
- There is also an opportunity for voter education through contact. In the 2022 survey of registered voters, 37% of Asian Americans did not declare an identification with either political party.

IMPORTANCE OF LANGUAGE ACCESS*

- 73% of Asian American adults in South Dakota speak a language other than English at home, and 38% are Limited English Proficient (speak English less than "very well")
- The top 5 Asian languages spoken in South Dakota are Karen languages (1,909), Chinese (1,339), Tagalog (1,298), Korean (770) and Nepali (769)
- In the 2022 Asian American Voter Survey, among Asian Americans that spoke a language other than English at home, 11% said that language has been a barrier in voting in previous elections and 42% said they would make use of voting assistance in their language (national-level data)
- There are no NHPI languages with more than 100 estimated speakers in South Dakota

SOCIOECONOMIC CHALLENGES*

- About 1,105 Asian Americans in South Dakota (9%) lack health insurance
- About 2,017 Asian Americans in South Dakota (17%) live in poverty
- About 2,074 Asian Americans in South Dakota (16%) lack broadband access
- About 97 NHPIs in South Dakota (19%) lack health insurance
- About 125 NHPIs in South Dakota (25%) live in poverty (Note: use with caution due to small sample sizes)
- About 31 NHPIs in South Dakota (14%) lack broadband access. (Note: use with caution due to small sample sizes)

MULTILINGUAL VOTER HOTLINE

- If you, or anyone you know, has difficulty with language access or needs any other type of voting assistance (including questions about polling locations or voting procedures), please call the National Asian American Voter Hotline at 1-888-API-VOTE (1-888-274-8683).

For more information or questions, please email info@apiavote.org or info@aapidata.com.

* Data on language access and socioeconomic challenges are presented for the mono-racial populations. In order to capture AAPIs who are mono-racial as well as multi-racial, we have calculated statewide population and electorate numbers using the Public Use Microdata Sample (PUMS). We do this because CVAP numbers provided by the U.S. Census do not include multiracial AAPIs, and we cannot double-count when adding multiracial population numbers from FactFinder tables. All 2020 estimates were derived from the 2020 ACS 5YR PUMS including the county-level estimates, which were calculated by combining the Public Use Microdata Areas for the 3 largest counties per state.
